Présentation

Objectives

The objectives of this course are to train students in research work in the various disciplines of management sciences (strategy, finance, marketing, accounting, management control, human resources, marketing, information systems, etc.).The conception of the Master's degree is multidisciplinary and deals with the relations of management sciences with economics, sociology, history and engineering sciences.This is a highly research-oriented path of excellence for a limited number of students who wish to engage in doctoral work at the end of the M2 program. Students enrolled in M2 Training for Higher Education Professions also prepare for the external "agrégation" competition in economics and management.In line with these ambitious objectives, recruitment is therefore very selective.

Target Audience and Entry Requirements

The Master in Management (research) study path is open to applicants who hold a university undergraduate degree in management and/or economics-business or an equivalent qualification from a Grandes École, endorsed the French government. The prerequisites and the student profile that qualify for entry into the various study paths of the Master are typically as follows:

- Students in the first year (L3) of the Ecole Normale Supérieure Paris Saclay
- Undergraduate degree in Management, or with Management as core curriculum;
- Undergraduate degree in Economics-Business or AES;
- Undergraduate degree in Social Sciences or LEA with a study path oriented towards the world of organisations;
- Any other equivalent qualification that features Management as its core curriculum. In addition, students must speak English to B1 level at minimum.

Période(s) de candidature

Inception Platform

From 12/05/2026 to 16/06/2026
